

A+ Garage Doors × ChatGPT

Project Proposal

The Elevator Pitch

OpenAI just opened the ChatGPT App Store to businesses—and A+ Garage Doors can be first.

Over 800 million people use ChatGPT every week. When they ask about garage door problems, repairs, or installations in Nevada or Utah, a custom A+ Garage Doors app can answer their questions, diagnose issues, and book appointments—all within the conversation.

No phone tag. No web forms. No waiting. Just: "My garage door won't close" → "I can help! A+ Garage Doors serves your area and has 24/7 emergency service. Here's your confirmation for tonight."

The opportunity: Be the first garage door company in your markets on ChatGPT, capture leads before they reach Google, and connect directly to your ServiceTitan scheduling.

Executive Summary

What We're Proposing

A custom ChatGPT app that puts A+ Garage Doors inside conversations with 800+ million weekly users. The app will:

- Check service area coverage across all Nevada and Utah locations
- Diagnose garage door problems from customer descriptions
- Book appointments directly into ServiceTitan
- Auto-apply relevant promotions (spring specials, new door discounts, tune-ups)
- Display branded confirmation cards and door style galleries

Why A+ Garage Doors is a Perfect Fit

- **19+ years in business** with established reputation
- **Multiple locations** across Las Vegas, Salt Lake City, St. George, and Utah
- **24/7 emergency service** that matches ChatGPT's always-on availability
- **ServiceTitan already in place** for seamless scheduling integration
- **Active promotions** ready to auto-apply based on diagnosed issues

Business Benefits

1. **New Lead Channel:** Reach customers asking ChatGPT about garage doors before they search Google
2. **Always-On Booking:** Customers can book emergency repairs at 2 AM without callbacks
3. **First Mover Advantage:** Early apps get priority placement in the new ChatGPT app directory

4. **Zero Disruption:** No changes to your website, phone system, or daily operations

Next Steps

5. **Discovery Call** — Review your services, locations, and promotions (30 min)
 6. **We Build It** — Connect ServiceTitan, build the app, handle OpenAI submission
 7. **Go Live** — Launch to 800M+ ChatGPT users
